Natal Chart Report

What follows is your personal natal chart information, as well as interpretations of the positions and aspects in your chart.

With this report, you will find out the positions of the planets in your natal chart by sign. The most personal of these are the Sun sign, Moon sign, Mercury sign, Venus sign, and Mars sign. Most people already know their Sun sign. If your time of birth is known, you will also find out your Ascendant, or rising sign, as well as the positions of the planets in the houses of your chart. Aspects between the planets are also listed and interpreted.

If the birth time is unknown, you may not know the Moon sign for certain. This is because the Moon changes signs approximately every 2-1/2 days, making it quite possible that someone is born on a day in which the Moon sign changes. Less probable but still possible is a change of signs for the other planets and luminaries, depending on the planet itself (example the Sun changes signs every 30 days or so). For an unknown time, on some birth dates the Moon may be in one of two possible signs. The possible range for Moon signs can be determined by noting the sign at 00:01 and also at 23:59.

Each paragraph of interpretation refers to an individual position in your chart. All of these positions and aspects are some of the "parts" that make up a "whole"--you! Some

of these interpretations will be contradictory, just as people are contradictory. A person can be downright timid in love, and that same person can be aggressive in business. Not only that, we evolve and grow throughout our lives, facing challenges that help us to handle our positions and aspects in a different way. We all have choices, and one of the largest benefits of astrology is the ability to understand ourselves better so that we can work with our natal charts rather than against them. Any computerized report that interprets the individual placements in a natal chart is somewhat disjointed, simply because the different parts that make up the whole are not synthesized.

Some of the interpretations that follow are detailed, while others are brief. You can do some further reading about different positions (such as Moon in Libra, Saturn in the 10th house, Moon conjunct Mercury) in your chart by exploring our own site, other astrology sites, and by reading astrology books.

The tables here show the technical details of your natal chart, personalized based on your birth data. Below the tables is your free birth chart report.

Planet Positions, Ascendant, & Houses

The following table shows the position of the planets in your chart, by sign and degree. On the right, you will find the sign of your Ascendant and the signs on the cusp of each house in your natal chart. The Roman Numerals refer to the houses, where the Ascendant is also the first house and the Midheaven is also the tenth house. For example, if the sign Taurus is next to Mars, you know your Mars is in Taurus. If the sign Libra is next to Venus, you know your Venus is in Libra. If Cancer is next to Ascendant, you have a Cancer Ascendant, and if Leo is next to II, Leo is on your 2nd house.

Birth Chart

This birth chart report shows the positions of the planets for Kam .

The Sun represents vitality, a sense of individuality and outward-shining creative energy.

Sun in Leo

There's an unmistakably regal air to Solar Leos. These are dignified--even noble--folk. Leos have a reputation for being conceited, but think again. Leos do feel important, but this generally takes the form of wanting to change the world in some way--to make the world a better place. They are generally motivated by affection for people, and often have big dreams and plans to make people happy.

Generally, Leos are hard-working. After all, they are attracted to the good things in life, and they know they have to work to get them. It is sometimes difficult to imagine Leos as go-getters if you happen to catch them in one of their languid moods. These people can sleep in, laze around, and luxuriate for long periods of time. However, when they do get to work, they do it with intensity and determination. In this way, they are not unlike their symbol, the lion. The worst thing you can do to a Leo is accuse them of bad intentions. Displaying behavior that makes them think you don't appreciate them runs a close second. These happy, jovial people become mighty hurt when others don't see them for their noble intentions.

Loyal, and sometimes rather traditional, Leos are, after all, a fixed sign. They'll hold on to situations and people for a very long time before they give up. There is an

unmistakable idealism to Leo's view of the world and the people in it. Often, Leos have a very noble inner code that they answer to. Although on the surface, Leos appear rather confident, they can actually be some of the most humble souls around. They are the first to blame themselves when something goes wrong. Once again, it's the Leonine self-importance at work, and this characteristic works in unexpected ways. Instead of being the conceited, self-absorbed show-offs of reputation, they are usually very self-aware, self-conscious, and, yes, even humble.

Short description:

He is masterful, likes authority, aspires towards an ideal. He likes to give advice. He is honest, frank, loyal, open and sincere.

Weaknesses: pride, vanity, arrogance, presumption and disdain of others.

Sun in VI

The work that you do, and the services that you offer, are very important to your sense of identity. In order to feel good about yourself, you need to be busy with daily activities and to produce work you can be proud of. Focus on finding a suitable and rewarding avenue for expressing this part of you, being extra careful to choose an occupation in which you can express yourself. You are sensitive to criticism about the work you do, and you work best when you can create your own schedule. Positive feedback for the services you render is important to you, but be careful not to over-identify with the appreciation you receive from others, as your work and your health suffers when you feel under-appreciated. Motivation to do a good job should come from within.

296 Sextile Sun - Moon

Your emotions and your will are at peace with one another, suggesting a rather balanced personality. The "messages" you received in childhood were not contradictory overall, and you have a stronger sense of purpose and appreciation of harmony than most people. You are likely personally popular, mainly because you expect harmony in your relationships. You are attractive to the opposite sex, and your self-confidence and security make you easy to deal with on many levels. Your relaxed, easygoing disposition puts others at ease. You may not be prepared for conflict and you often avoid "rocking the boat". You may acquiesce to others a little too often, if only to maintain a feeling of balance and harmony, as conflict is something you not only dislike, you might fear it. The tendency towards too much acceptance--of the self and of others--is usually present. You must be encouraged to question life, or you run the risk of taking things for granted. Vitality is usually good and quite constant. You are not necessarily hard-driving, unless other indications in the chart point to it, but your constitution is generally strong. At any rate, you are not as prone to the kinds of ups and downs that plague those with challenging aspects between the Sun and Moon. This is because even though your life goals and your emotional needs are different, they are in harmony.

Short description: He has lots of vitality. He likes public life, he is popular and his company is appreciated. He is balanced, at ease with himself and usually gets on very well with his parents.

-423 Opposition Sun - Jupiter

Although your intentions are generally good, you are given to overdoing things. You can easily gloss over realistic details and get yourself into debt, overindulge in pleasures such as food and drink, and promise more than you can deliver. For the most part, you find help for your excesses. Somebody's there to bail you out, as plenty of people believe that your heart is in the right place. Generally, this is the case, but if excessive behavior becomes a pattern, and you continually face light consequences, there is the danger that you will not learn from your mistakes and abuse the "system", relying on your friends and family to help you out a little too often. Your reputation for being "good people", thus, can eventually be used to further your purposes--something that should, of course, be avoided.

However, many people with this aspect don't fall into the trap of losing their sincerity. You are generous, helpful, and charitable. Still, the tendency to live beyond your means is a real threat that you might struggle with much of your life. Another thing to watch for is depression. You tend to go through periods of intense highs when you are excessively optimistic. These periods are so marked that they seem to be unnatural and a fall seems to be inevitable. You can make promises you intend to keep, but have a problem with follow-through. Self-control can be a real problem. Try to avoid gambling altogether. Usually quite knowledgeable and generous with your time, you have many talents that you might take for granted.

55 Trine Sun - Saturn

It is easy and natural for you to accept responsibilities, to lead a rather ordered life, and to apply caution in your financial and business dealings. You rarely jump to conclusions or take uneducated risks. You have a certain amount of patience and enough self-discipline to slowly but surely achieve what you set out to do. Although somewhat undemonstrative, you are generally loyal and responsible people to those you care about. You take your time in most endeavors and generally use a step-by-step approach to most projects--but you steadily reach your goals. You are naturally trustworthy, and you don't have much patience for those who don't show respect for others, who take foolish risks, and who lead disorganized lives.

The Moon represents the emotional responses, unconscious pre-destination, and the self-image.

Moon in Libra

Moon in Libra people have a strong need for partnership. Without someone to share their lives with, they feel utterly incomplete. This is why many people with this position get involved in marriages or living-together arrangements quite young. Because this drive for harmony, peace, and sharing is so powerful, Lunar Librans are apt to do a lot of conceding. They are sympathetic and concerned for others, enjoy socializing, and revel in a good debate. Mental rapport with others is especially important to them.

Lunar Librans feel safe and secure when they are in a partnership. These are the people

who seem to always need to have someone tag along with them wherever they go -- even if it is to the corner store. They find strength and reinforcement in and through others. Both men and women with this position are often quite charming. They can be very attractive to be around, and are often given to flirtatiousness. Rarely directly aggressive, these people win your heart with their gentle and refined ways.

Moon in Libra natives simply can't help but see flaws in their environment and their relationships. In fact, anything out of whack will bother them until it's fixed. Although diplomatic with acquaintances, when Moon in Libra natives argue with their long-standing partners, they rarely let up until they win. And, winning an argument is a Libran specialty--in fact, they may not even believe what they are saying, but will adopt all kinds of ideas just to get the last word. Living with Lunar Librans can sometimes feel like you are on trial, and Libra is the expert lawyer. Sometimes, though, Libra is defending you and supporting your point of view. Lunar Librans' idealistic outlook and constant striving for the best, most harmonious lifestyle can lead to much discontent. Looking for that one (elusive) perfect way to lead their lives can detract from enjoyment of the moment.

Short description:

He is sociable and popular. Has good judgement, he is intelligent and reasonable. Likes social pleasures.

Weaknesses: instability in loving relationships, unfaithfulness, gives too much weight to the views of others and to public opinion.

Moon in VII

Marriage is very important for him, for better or for worse. Cannot stand being alone. Likes business relationships, especially partnerships.

You are drawn to partnerships and prefer to have a companion for emotional support. You are not a person who would happily take in a movie by yourself, or dine alone, for example. A partner awakens feelings in you that you may never know you had, and you seem to need a partner to learn about your own needs and feelings. Emotional fulfillment is sought through relationships, but you may have many relationships one after another, each time believing that this is "the one". Taking time between relationships is something that is hard for you to do, but quite necessary, as you tend to jump into relationships out of fear of being alone. You are very adaptable to others' needs, and usually quite likeable as a result. Be careful that you don't become overly dependent on a partner, or assume that a partner is going to treat you the same way as you do them.

27 Conjunction Moon - Mars

You are a passionate person who loves life. Although your emotions are powerful and immediate, your passion is generally controlled and directed. You are a sexual person who nevertheless doesn't get too carried away or controlled by your passions. Because your emotions are strong and you know how to channel them into constructive

channels, you don't easily understand such things as "crimes of passion", impulsive behaviors, or emotional excitability in others. You're generally open, accepting, and natural in your sexual expression. You need an emotional connection in order to feel complete on a physical level. You may have an affection and talent for sports, but other factors in the natal chart are necessary to provide the motivation and commitment.

Short description: He is frank, honest, full of vigor and ambition. He is strong-willed and powerful at work. He is a little hard on himself but, above all, on others whose capacity for action is not as great.

107 Trine Moon - Jupiter

He is generally pleasantly composed, due to an inner sense of harmony and emotional balance. He is optimistic--and realistically so, most of the time--which contributes to his overall "luck". He is able to get a real perspective on emotional matters that not only benefits his outlook, he is able to offer support to others when needed. Broad-mindedness is a wonderful characteristic. Quick to find humor in situations, he is generally warm and fun to be around. Deep down, he believes in the basic goodness of people and of life in general, and this basic and natural attitude helps him to attract positive circumstances and to make good connections. One of his best qualities is tolerance. Usually, he doesn't take life too seriously in the sense that he believes in having a bit of fun. His hunches are more often than not bang-on.

He is frank, honest, optimistic and generous. He likes good cooking, his comforts. His friendships are sincere. He is a worker and knows how to surround himself with the right people: He is appreciated at work.

-110 Opposition Moon - Saturn

When Moon is in hard aspect to Saturn in the natal chart, natives need to learn to trust others more. Fear keeps them from fully enjoying personal relationships, and fear is behind the occasional rigidity that they express. When they let themselves receive nurture or care from others, an inner voice cautions them that it might not be sincere, long-lasting, or enough! There can be some reluctance about becoming a parent, but once taken on, these people don't take their responsibility lightly.

Emotional reticence is the main theme of these aspects. Many people with this aspect had a lot of conditions placed on the love they received in early childhood. They tend to expect the same later in life. With hard Saturn aspects, individuals are often plagued with doubts, not only about the self but about what to expect from life itself. The problem is that expecting difficulties or negative situations creates an aura around them that perpetuates the problem. They must work hard at positive thinking and expecting more from life. Ironically, many people with hard Saturn aspects can be quite sarcastic, skeptical, and rigid in manner. This is essentially a defense mechanism designed to protect themselves from harshness in the world.

It is extremely likely that they feel neglected because they perceive it in the first place, and later expect it, to be the case. There's a vicious circle going on here that can only be broken when the patterns created by negative conditioning are broken. Adjusting

one's perceptions and expectations is the key to breaking out of these negative patterns. Otherwise, natives of hard Moon-Saturn aspects will live life feeling left out--attracting circumstances that perpetuate a feeling of deep unhappiness and dissatisfaction.

Short description: He has changeable moods, a reserved character, is stubborn and lacks assurance. His relationship with his mother may have been difficult, he has may have had considerable family problems. This is the standard aspect for children who are abandoned or who lacked maternal love.

Mercury represents communication, Cartesian and logical spirit.

Mercury in Virgo

He discusses, deduces and judges. He reasons logically and accurately. He spends a lot of time on practical matters and keeping things in order. Sometimes nitpicky and nervous, secretly feeling he handles matters better than others.

Mercury in VII

Hates being alone. He has lots of friends, likes to discuss and similarly has a lot of work friends. Likes to write.

You have a great love of debate, if only to get closer to your own thoughts and opinions. Bouncing ideas off others helps you to make a decision, although coming to definite conclusions can be painfully difficult for you. You see the other side of the coin. You might often play devil's advocate. Communication with a partner is craved, and you also love an audience for your own thoughts and opinions, but preferably a one-person audience, as you come alive verbally when it's one-on-one. You can be quite skilled at keeping a partnership animated and alive with interesting tidbits, new ideas, and stimulating conversation. You can easily become bored in partnership if the lines of communication go down, even temporarily. You might also love to talk about and analyze relationships and marriage.

146 Conjunction Mercury - Venus

He looks on the bright side of life: he is gay, agreeable, optimistic, sociable. He likes to speak and write, and does both with charm and artistry. His intellectual pleasures are influenced by his feelings. He is amorous and sensual. He likes beauty, the Arts but also travelling.

-208 Opposition Mercury - Ascendant

He may criticize and gossip, arguing frequently and often nervous. Without even realizing it, he might look for or instigate a verbal battle, and is provoking.

Communication is very important to you, and your mind is sharper and more creative when you have a partner you can bounce your thoughts and ideas off of. You are an excellent conversationalist and can fascinate your partners with your sharp mind. You

love to debate issues just for the mental exercise, even if you don't feel strongly about the position you argue! You play devil's advocate often, and your ideal partner understands that your debates are, in fact, mental exercises--certainly not attacks! You are also prone to exaggerate or stretch the truth when trying to make your point, especially when it comes to your own background or experience.

In your close relationships, your partner serves as a mirror, reflecting your thoughts and ideas back to you from a different perspective. You are rather independent and will not allow anyone to restrict your freedom, but you love to talk things out before arriving at a decision. Truth is, you won't always take others' advice! However, you do enjoy looking at problems from all sorts of different perspectives. You may choose partners who are considerably younger than you, or who are not as academically smart as you. Conversations with you are always stimulating and lively. The ability to share your thoughts with a partner is vital to your sense of fulfillment in a close personal relationship.

\r\nVenus represents an interest for emotions and values, exchange and sharing with others.

Venus in Virgo

Venus in Virgo people are not the flirtatious sort. Instead, their appeal lies in their dedication, their willingness to work on the relationship, and to make the relationship work in real terms. Unlike Venus in Leo, they won't try to impress you with grand gifts or promises. Their gifts are less showy, but perhaps far more generous -- gifts of devotion and attention to details about you. Venus in Virgo men and women quietly (and often slowly) make their way into your heart. They are quite sensitive in love -- even insecure -- and this reserved, loner-like quality is part of their appeal. They prefer to play it safe in their relationships, and they need to be confident that you like them before they make a move. They are great listeners and they make it a habit to observe and learn all of your ins and outs. Their love can be of the Kindergarten variety -- they show they care by nagging or criticizing. Remember, though, that they are not trying to hurt you when they are pointing out the flaws in your thinking, plans, or even character. They truly are trying to help! Venus in Virgo is attracted to nondescript people who have largely gone unnoticed. Show-offs and know-it-alls turn them off.

Pleasing Venus in Virgo involves showing you appreciate them for all the little things they do -- and they do a lot. The problem is, they do these things so quietly that you may not always notice or credit them for all these kind gestures. They do need some space (after all, they're generally quite busy making everything work), so give it to them. Be genuine, not ostentatious. They are really not difficult to please after you have taken care of these basic needs. Avoid pushing your friends or family on them too fast -- remember they are a little shy. They aim to please, and are easily intimidated by your experiences. Let them know how much you value them, and they will reward you with devotion and a charming willingness to talk things out.

Short description:

He is very devoted, does not show emotions: he and doesn't always let himself go,

either through fear of ridicule or through fear of not being loved in return as much as he loves. He is therefore sometimes too undemonstrative. May give off the sense that his love is not for free. Caring but worries that he is not exciting enough. Careful with money.

Venus in VII

His fate depends a lot on marriage. Marries for love, children, happy emotional life.

You live for relationships. It is hard for you to think about being alone. Harmony is most important to you, so it is unlikely you will attempt to dominate a lover. You are a peacemaker, sometimes going to great lengths to achieve a balanced, harmonious relationship. Be careful not to bend over backwards just to keep the peace--you may be taken advantage of. Your marriage partner may be especially attractive, charming, or well off. You are extremely attractive, agreeable, and charming, drawing others to you magnetically. You need an unusual amount of contact and exchange with a partner, and might find that you feel completely lost without one. Some of you might quickly enter into partnerships, perhaps too quickly and neither equipped nor prepared for the responsibilities that a long-term relationship demands. In some cases, there can be a shallow or materialistic interest in partners. Your hips and lower back may be special erogenous zones for you, or they may be especially attractive body parts.

-8 Opposition Venus - Ascendant

He goes to excess in his pleasures, frequents doubtful company. He lacks good taste. He is very spendthrift, but spreads his money around his circle. His friends are more self-interested than sincere.

Mars represents the desire for action and physical energy.

Mars in Libra

Mars in Libra natives often reflect about things before they act. Decisiveness is not their strong point, but they do, eventually, get things done. Many people with this position procrastinate, generally because they feel the need to weigh all of the alternatives before taking action.

Life isn't always fair, as Mars in Scorpio would say, but Mars in Libra will seldom accept this notion. These natives can easily get caught up in defending themselves and others. Although their overall goal is to live peacefully, they stir others up with their desire to balance everything. Still, they always play innocent when they are challenged, and can generally charm the birds out of the trees to win your favor. Passive-aggressiveness is practically the hallmark of this position. They don't want to look like they are ever being mean or unfair, but aggression has to go somewhere! Too often, this results in sneaky behavior and subterfuge. On the other hand, some Mars in Libra people turn the Mars energy into action, and they fight for Libran justice and fairness in the world. On the up side, Mars in Libra people are adept at predicting when problems and discord will occur well in advance. They know how to compromise and are excellent at conflict management.

Mars in VII

He dominates his associates, colleagues. He is the same in love life, dominating the spouse and this makes for a stormy relationship in prospect.

-20 Opposition Mars - Saturn

He is only interested in doing something if there are problems attached: once these are solved, he goes on to something else which has complications. He likes to overcome obstacles, is tough, does not have too many feelings, especially in business. He is egoistic, violent and stubborn. He does not always make friends.

-44 Square Mars - Neptune

This is a challenging position, as you have difficulty trusting in your ability to go after things that you want in a direct manner. It may also be that you have difficulty pinpointing what it is that you want, or that part of you doesn't feel you deserve it due to a basic lack of self-confidence. You fear rejection as well as criticism, and often use roundabout means to go after what you want.

Your imagination is so powerful that it can be hard to trust your instincts. You easily imagine things going wrong, just as you easily fantasize about good things! Your desire nature is strong yet also very suggestible. You're attracted to mysteries and intrigue. Sexual experimentation is likely, as you are forever addicted to sensuality and unusual or perhaps even what many would consider perverted sexual scenarios. However, your sensual appetite might be much like a bottomless pit, and you could find yourself forever in a state of wanting more, tiring of regular sexual scenarios quickly, and endlessly searching for the next sensation. If an addiction to fantasy is present, you can find yourself constantly chasing a new and more complicated fantasy. It is only when you get into touch with your heart and discover your true desires that you realize that sensations are merely sensations--not deeply satisfying or fulfilling. \r\nFears of sexual inadequacy can be great with this position, and you may either deny yourself as a result, or overcompensate, seeking out experiences in which you are pretty much assured positive feedback. Some of you will experience both of these extremes in your lifetime.

Although you can be very creative at keeping your motives and personal agenda hidden--in fact, many of you seem on the surface of things to be quite gentle and yielding--you might eventually become resentful if you feel the need to resort to sneakiness in order to get what you want out of life. If you do feel resentment for giving up your power to someone else, learn to avoid giving it up unless you truly understand that you are doing it for yourself, and not for someone else. Resentments have a way of building and distorting themselves into ugly matter if you don't deal with them properly and directly. You are often passive-aggressive in your approach to others, and this can cause a lot of problems in your life. You are usually found chasing a dream... or a fantasy. The former is probably the better path. \r\nAdopting a more direct and assertive approach to life is something that you should be working towards. You will need to get over your feelings of guilt when you do adopt this approach. Learning to take responsibility for your

actions, and to avoid blaming others for failures, is important. At your worst, you can be disorganized in your approach to life, easily procrastinating and lacking follow-through when you do begin a task. Some of the most important lessons you need to learn in life are self-control, self-assertion, and trust in yourself. At your best, you are a creative person with a powerful imagination and great stores of compassion.

\r\nJupiter represents expansion and grace.

Jupiter in Aquarius

He attracts the most good fortune when he is tolerant and fair, inventive, impartial, and cooperative. Values people and personal freedom most. Wants to show unique perspective or skills. Open to new methods and progress. Great tolerance and humanitarianism.

Jupiter in XII

He is kindly, and does charity work. He is protected from life's rigors to which he is not immune, but he knows how to cope. He likes working in peace and alone.

32 Sextile Jupiter - Saturn

He is serious, patient, honest, hard-working, orderly. His judgment is good and he thinks things over. He pursues his objectives to the bitter end, usually knowing when to choose the right moment. He is upright and respects the law.

Saturn represents contraction and effort.

Saturn in Aries

Self-consciousness can be a problem. Must learn to develop self-confidence. Is bothered by a "me-first" attitude in others, but must learn that "me-first" is sometimes necessary, in moderation.

Saturn in I

He can be self-conscious in new situations, especially when young. His manner is somewhat cautious and guarded. First reactions to new ideas or plans are reticent and somewhat negative, but these are only first reactions. Can be methodical, patient, somewhat distrustful, polite. He speaks little at first and does not waste energy unnecessarily. He has a good memory and sense of organization, likes to do things well. He is never slapdash and has a strong sense of responsibility.

Uranus represents individual liberty, egoistic liberty.

Uranus in Aquarius

Gets over-excited at the start of a task that interests him. His debonair personality gives others a banal impression.

Uranus in XII

He has difficulty in adapting to the modern world, to new technology. He looks for a job in an isolated place.

54 Conjunction Uranus - Neptune

38 Sextile Uranus - Pluto

He fights to improve his daily life, he is persevering.

Neptune represents transcendental liberty, non-egoistic liberty.

Neptune in Capricorn

He is discerning, wise and sensible.

Neptune in XI

Friendships are unselfish, and often wants to belong to a group of like-minded people.

3 Sextile Neptune - Pluto

Pluto represents transformations, mutations and elimination.

Pluto in Sagittarius

Great aspirations: sexuality and love are idealized.

House I is the area of self identity. The ascendant is a symbol of how one acts in life. It is the image of the personality as seen by others, and the attitude that one has towards life.

Ascendant in Pisces

"Go with the flow" seems to be a Pisces rising motto. They move about the world in a vaguely directionless, gentle manner. They come across as artists and lovers of peace; but their open minds and hearts can give them a chameleon-like persona. Others are not always sure who they'll meet from one day to the next with a Pisces rising person. Although often quiet and shy, another day may find them talkative and passionate. They are hugely impressionable, have a dreamy disposition, and project a soft-hearted personality. Pisces rising sees the world the way they want to see it at any given time, so objectivity is not necessarily a strong point. Neither is decision-making! People with Pisces rising resist any kind of labeling--their characters are changeable, and they don't want to be pinned down or pegged in any way. Theirs is a restless, searching nature that cannot be happy with any one way of living or being. Pisces rising avoids cold, hard facts and harsh realities like the plague. They don't have a decisive plan for tomorrow or even today, preferring to keep things open. Since they change their minds frequently

enough, and like to "feel" their way through life, too much organization or structure can be seen as very limiting.

Pisces rising people walk around with their heads in the clouds, and even when you do have their attention, their dreaminess is almost always apparent. These people look for a stable partnership--one that is reliable. Pisces rising people gravitate to partners who keep them on their toes, and they often will pass off the little details and reality checks to their significant other. They seem to need a practical, realistic partner. Pisces Ascendants often have a sensitivity to drugs, and sometimes are prone to allergies that come and go. Their physical constitutions seem to be less resistant than most. Pisces rising people often possess an irresistible charm that comes on in a quiet way, with a soft aura about them. Both their appearance and mannerisms are usually quite intriguing to others.
